

MEDICAL STATEMENT

PATIENT RECORD — CONFIDENTIAL INFORMATION

Please read carefully before signing.

This is a statement in which you are informed of some potential risks involved in freediving and scuba diving and of the conduct required of you during the freediving and/or scuba training program. Your signature on this statement is required for you to participate in the freediving and/or scuba training program offered by:

(Instructor)	and (Facility)	City	State

Read and discuss this statement prior to signing it. You must complete this Medical Statement, which includes the medical-history section, to enroll in the freediving and/or scuba training program. If you are a minor, you must have this Statement signed by a parent.

Diving is an exciting and demanding activity. When performed correctly, applying correct techniques, it is very safe. When established safety procedures are not followed, however, there are dangers.

To freedive and/or scuba dive safely, you must not be extremely overweight or out of condition. Diving can be strenuous under certain conditions. Your respiratory and circulatory systems must be in good health. All body air spaces must be normal and healthy. A person with heart trouble, a current cold or congestion, epilepsy, asthma, a severe medical problem, or who is under the influence of alcohol or drugs should not dive. If taking medication, consult your doctor and the Instructor before participation in this program. You will also need to learn from the Instructor the important safety rules regarding breathing and equalization while freediving and/or scuba diving. Improper use of freediving and/or scuba equipment can result in serious injury. You must be thoroughly instructed in its use under direct supervision of a qualified Instructor to use it safely.

If you have any additional questions regarding this Medical Statement or the Medical History section, review them with your Instructor before signing.

MEDICAL HISTORY

TO THE PARTICIPANT:

Signature

The purpose of this medical questionnaire is to find out if you should be examined by your doctor before participating in recreational

items	apply to you, we request that you consu	t with a physician prior to partic	with a YES or NO. If you are not sure, answer YES. If any of the icipating in freediving and/or scuba diving. Your Instructor was Scuba Diving physical examination to take to your physicial. Are you presently taking prescription medications? (with the exception of birth control or anti-malarial)
	currently smoke a pipe, cigars, or cigarettes have a high cholesterol level E YOU EVER HAD OR DO YOU	have a family history of heart attacks or strokes are currently receiving	diabetes mellitus, even if controlled by diet alone
